

CYROMAZINE

Molecular Structure:

Formula:C₆H₁₀N₆

Molecular Weight:166.18

CAS NO.:66215-27-8

Physical and chemical properties

Melting point:220-222 °C

Technique specification

Appearance:white crystal powder

Assay:98%min

Packing:1kg , 25kg/barrel

Usage:Animal drug

Storage:keep away from light and air in dry warehouse,for
two years.
